

A year of good
made possible
by **you.**

2019
ANNUAL
REPORT

A MESSAGE FROM OUR CHAIR

2017 was a year of phenomenal growth at North York Harvest and we have you to thank. As one of our incredible supporters, you've made sure we can be so much more than a food bank.

Sadly, the number of people who rely on us for help to keep food on the table each month continued to grow in 2017. The rising cost of living has put so many of our neighbours in an impossible position - being forced to decide between food, rent, childcare or medication, as they struggle to make ends meet. Thank you for making sure our neighbours in need could find healthy food for themselves and their families, even when times were tough.

While the food we provide is essential, and will always be at the center of our work, we know our community needs so much more to thrive. Your support throughout 2017 made sure we could not only meet people's food needs, but also work with our neighbours to build a healthier, more connected Northern Toronto through employment, skill sharing, gardening and drop-in meal programs.

Reading through this report, I hope you see just how much of an impact you are making in Northern Toronto. As the demand for our services grows, you are the reason we can be there for those who need us most.

In friendship,
Kerry

2017 BY THE NUMBERS

24,393

people found healthy food and support through our network of 37 member agencies, 31% of whom were children.

2.3

million pounds of food were provided to our community, including 230,000 lbs. of fresh produce.

140

community programs received the food they needed to run 38 community food banks, 21 meal & snack programs, 45 community kitchens, 11 pre-natal programs, 25 skills training programs.

36

students graduated from our Leadership and Logistics employment readiness program. Over 80% of those graduates went on to find full-time employment.

162,566

visits were made to our food programs by our neighbours in need.

FOOD MEANS CONNECTION

There's nothing like a nutritious, homemade meal to bring people together. Norma, a community leader in Lawrence Heights, saw how the power of good food can make a difference in the lives of seniors. "The isolation these seniors feel can lead to malnutrition. They are lonely and food brings people together," says Norma.

Together, with other caring volunteers, she organized a social lunch program. Seniors in the neighbourhood were encouraged to join in to meet others, have a healthy meal and just get out of the house.

Norma reached out to NYH for food assistance. Thanks to your support, we were happy to help. Because of you, her lunch program received fresh and healthy ingredients, including fresh produce, meat and dairy products.

Norma shared how important these meals are to the seniors she works with, giving them a chance to interact with friends in a safe and welcoming environment.

Their very first meal together was chicken noodle soup. It was such a change for the seniors to enjoy a home cooked meal together. "I was almost in tears when one of the ladies told me she couldn't remember the last time she had homemade soup," Norma recalls.

Because of you, in 2017 we provided the food used to create 26,860 drop-in meals for community members to share together. Your made sure everyone, regardless of income, could experience the joy of a good meal with friends.

FOOD MEANS COMMUNITY

Our Community Garden program had 4 main goals in 2017: create volunteer opportunities for our members, reduce social isolation in our community, increase access to fresh, healthy produce and improve access to culturally appropriate foods. We're proud to report we were successful on all fronts!

During the 2017 growing season, 285 garden participants produced an incredible 2,000 pounds of organic fruits and vegetables, grown for and by our neighbours.

We grew over 100 distinct varieties of plants, including: vegetables, fruits, herbs, flowers and even some medicinal plants. We focused heavily on growing culturally appropriate and familiar foods that our diverse group of participants would recognize and appreciate.

Our gardens grew more than food though, they grew community. Coming together to learn from each other and collectively create beautiful green spaces, participants got to experience their neighbourhoods in a new way.

Children got a chance to learn about where their food comes from, seniors and newcomers got a chance to share their gardening expertise and make new friends and three communities got a new neighbourhood green space to enjoy throughout the season.

During the fall, we held Harvest Festivals, community potlucks and neighbourhood meals to enjoy the food we had grown together.

FOOD MEANS POSSIBILITY

Tammy needed a fresh start. She was turning to the food bank monthly to make ends meet for her family. After 18 years of being out of the workforce, she knew finding a good job wouldn't be easy, but she was determined to find a way to provide for herself and her three kids.

Tammy entered our Leadership in Logistics program last year. With no experience working in a warehouse, she quickly made a name for herself among her instructors. Having shown an incredible work ethic and keen ability to bring order to our busy warehouse environment, she graduated 13 weeks later and we couldn't bear to let her go.

Tammy is now an instructor in our program, helping others gain the experience and opportunities they need to find good jobs to end their reliance on food banks.

In partnership with The Learning Enrichment Foundation, our Leadership in Logistics program provides community members receiving social assistance with the in-demand job skills and experience they need to find stable, well-paid work in the warehouse and logistics sector. In 2017, 36 students graduated from the program and over 80% of them went on to find work in the field.

Leadership in Logistics is just one way we are working towards our vision of a community where all members are able to meet their food needs. This program works to address the root cause of hunger - poverty - by using what we have to create opportunities for decent work in our community.

FOOD MEANS INNOVATION

We are always striving for new ways to ensure our community has the healthy food they need. In 2017, with the support of donors like you and the Metcalf Foundation's Inclusive Local Economies program, we piloted a community-oriented food production system to bring an affordable, nutritious dry soup mix to the neighbourhoods we serve.

To get started, we asked our member agencies what types of food were most needed and hardest to supply for their clients.

They reported that there was a need for a hearty, vegetarian soup made with beans and rice that was nutritious but also easy to prepare.

Working with FoodShare and Food Starter, we created a unique Moroccan Lentil Soup. Not only is it delicious, our soup is a healthy, filling and nutrient-dense meal, which is easy to customize to suit specific tastes.

To prepare our soup mix, we teamed up with the Experiential Learning program at York Humber High School. The students in this program have special needs and are encouraged to learn life skills through hands-on training and experience.

We sold our soup mix at Food Share's Grab Some Good Markets and in their Good Food Boxes. For every soup sold, another soup goes on the shelf for someone using the food bank.

We created and shared over 2,000 packages of our soup in 2017 and we're so excited to grow this program in the coming year.

SUMMARY FINANCIAL STATEMENTS

Completed audited financial statements including related notes to the financial statements, are available from North York Harvest Food Bank

Note to the Summary Financial Statements:

Applied criteria in preparation of the summary financial statements are as follows:

- The information in the summary financial statements is in agreement with the related information in the complete financial statements; and
- The summary financial statements contain the information necessary to avoid distorting or obscuring matters disclosed in the related financial statements, including the notes thereto.

Report of the independent auditor on the summary financial statements To the Directors of North York Harvest Food Bank.

The accompanying summary financial statements, which comprise the summary statement of financial position as at August 31, 2017, the summary statements of operations and changes in net assets for the year then ended, and the related note, are derived from the audited financial statements of North York Harvest Food Bank for the year ended August 31, 2017. We expressed a qualified audit opinion on those financial statements in our report dated February 16, 2018. Those financial statements, and the summary financial statements, do not reflect the effects of events that occurred subsequent to the date of our audit report on those financial statements.

The summary financial statements do not contain all the disclosures required by Canadian accounting standards for not-for-profit organizations. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of North York Harvest Food Bank.

Management's responsibility for the summary financial statements:

Management is responsible for the preparation of a summary of the audited financial statements on the basis described in the note to the summary financial statements.

Auditors responsibility:

Our responsibility is to express an opinion on the summary financial statements based on our procedures, which were conducted in accordance with Canadian Auditing Standard (CAS) 810, "Engagements to Report on Summary Financial Statements".

Opinion:

In our opinion, these summary financial statements derived from the audited financial statements of North York Harvest Food Bank for the each ended August 31, 2017 are a fair summary of those financial statements on the basis described in the note to the summary financial statements. However, the summary financial statements are potentially misstated as described in our qualified audit opinion in our report dated February 16, 2018 on the financial statements of North York Harvest Food Bank for the year ended August 31, 2017. Our qualified audit opinion is based on the fact that in common with many not-for-profit organizations, North York Harvest Food Bank derives revenues from donations and community events, the completeness of which is not susceptible to satisfactory audit verification. Accordingly, verification of these revenues was limited to the amounts recorded in the records of North York Harvest Food Bank. Therefore, we were not able to determine whether any adjustments might be necessary to donations and community events revenues, excess of revenues over expenditures and cash flows from operations for the years ended August 31, 2017 and August 31, 2016, current assets as at August 31, 2017, and August 31, 2016 and net assets at both the beginning and end of the years ended August 31, 2017 and August 31, 2016. Our qualified audit opinion states that, except for the possible effects of the described matter, those financial statements present fairly, in all material respects, the financial position of North York Harvest Food Bank as at August 31, 2017 and its results of operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.
